**ANNUAL STATISTICAL REPORT
FISCAL YEAR 2003-2004
NORTH CAROLINA ALCOHOL & DRUG ABUSE TREATMENT
CENTERS**

INTRODUCTION:

This is an annual report providing information from selected service indicators on the North Carolina Alcohol & Drug Abuse Treatment Centers (ADATC). Data included in the report are compiled from client admissions, client movements including discharges, and client diagnostic information. The data are stored in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services Client Data Warehouse(CDW).

Six detail summary tables are presented in this report. Eight additional graphs are provided to highlight data in the summary tables. Table 1 provides population summary data for fiscal year 2004 for each of the three Alcohol & Drug Abuse Treatment Centers. Data on persons served by region and county are presented in Table 2a, Table 2b, and Table 2c. Table 3a provides the demographic characteristics of the persons served at the three ADATCs. Table 3b shows the number of persons served by the three ADATCs by employment status and education. Table 3c presents number of persons served by the three ADATCs for two populations of special interest, pregnant women and injection drug users, by commitment level, and by diagnosis. Table 4 provides a comparison of major service indicators for the past ten fiscal years and Table 5 provides Discharge Days and Average Length of Stay for each of the three Alcohol & Drug Abuse Treatment Centers. Table 6a displays the primary drug of choice, while Table 6b provides any drug of choice for three Alcohol & Drug Abuse Treatment Centers.

ADMISSIONS:

Admissions have decreased from 3,572 in fiscal year 2003 to 3,488 in fiscal year 2004. This is a 2.4% decrease from FY03.

DISCHARGES:

There were 3,489 total direct discharges, deaths, indirect discharges, and transfer-outs in FY04. There were no deaths reported during FY04. The percent of direct discharges among total discharges was about 99%, while the percent of indirect discharges, those clients being discharged while on some type of leave placement, was about 1% in fiscal year 2004.

PERSONS SERVED:

The statistic "Person Served" is calculated by summing the book population at the beginning of the fiscal year plus all admissions and readmissions during the year. There were 3,656 persons served in state Alcohol & Drug Abuse Treatment Centers during fiscal year 2004.

The number of persons served per 100,000 population continues to be significantly lower in the South Central Region, at 25.3, than in the remaining three regions, in which each of the ADATCs are located. The Western, Eastern, and North Central regions rates are 39.7, 51.8, and 57.3 persons served per 100,000 population respectively. The "Persons Served" rate ranges from a high of 180.9 in Person County to a low of 2.6 in Cumberland County, with an overall statewide rate of 42.7.

The average length of stay in FY04 was 17.7 days, 1.0 day decrease from 18.7 days in FY03. The length of stay decreased at Black Mountain by 1.0 day and decreased at Jones by 0.5 days. Butner's Length of Stay decreased by 0.3 of a day.

About thirty six percent of persons served at the ADATCs in FY04 were women, which remained unchanged from FY03. The percentage of nonwhite persons served at ADATCs was 33.9% in FY04, slightly decreasing from 35.5% in FY03 .

For fiscal year 2004, 43.2% of the persons served reported alcohol as their primary drug of choice and 37.7% reported cocaine. In FY04 alcohol as a primary drug of choice decreased by 2.1% and cocaine as a primary drug of choice decreased by 1.5% compared to FY03. Overall, 52.7% of persons served reported abusing alcohol, 51.2% cocaine, and 36.1% marijuana in FY04.
